

# Quarter Plus Eight Ruler

---

This fabulous little ruler allows you to do so much with greater ease.

- Ruler is 8" long and  $\frac{1}{2}$ " wide with centre line dividing  $2 \times \frac{1}{4}$ "
- Lines are laser cut for easier sight and they will not fade or wear away
- Laser cut also means lines will show "neon", therefore easier placement on dark colours
- Easier marking of half square triangle units, see below
- Easier add a  $\frac{1}{4}$ " to pattern pieces and foundation piecing
- Good depth of ruler to cut or trim against
